7 moves to a calmer week

Set it up once (about an hour). Keep it going in 10 minutes a week.

1

One list

Every assignment, quiz, and exam in one place. Navo pulls it from Canvas.

2

Size it

Guess the hours for each task. A 'quick' reading rarely is.

3

Work backward

Start the big stuff days early, not the night before.

4

Block time

Reserve study time like a class you can't skip.

5

Weekly reset

Ten minutes on Sunday to catch anything new. Navo updates itself.

6

Space it out

A little each day beats one all-nighter.

7

Triage when slammed

Graded and due soon first. Optional reading last.

Navo does moves 1, 3 and 5 for you - free.

Just open it and see today's plan. Connect Canvas once.
